PROFESSIONAL EXPERIENCE

Personal Projects

- **E-Commerce site**—[View Project](#)
E-commerce clothing store built with React.js, featuring product browsing, shopping cart functionality, and a modern responsive UI.
- **MovieZone** — [View Project](#) A sleek movie information platform where users can explore movie details such as title, rating, genres, release year, and audience count. It fetches real-time data via a public API and offers an interactive UI for film enthusiasts..
- **S.Store (E-Commerce)** — [View Project](#) A simple e-commerce front-end where users can browse products, add items to the cart, and simulate a shopping experience. Ideal for testing UI flows and showcasing basic store functionalities without backend integration.
- **Katra Life** — [View Project](#)
Built a lifestyle-themed landing page with clean, user-centered design. Focused on layout structure, typography, and responsive design using modern web technologies.
- **Admin-Dashboard (React)** -[View Project](#)
Interactive Admin Dashboard: Developed with React, Material UI, and Firebase, it displays key business metrics—such as emails sent, sales, clients, and revenue—using charts
- **Food Website**— [View Project](#) Developed a responsive Food-Delivery web application featuring a clean UI, allowing users to browse meals and add items to their cart seamlessly. Built using HTML, CSS, and JavaScript with a focus on smooth user interaction and modern design.
